

SCHOOL ANTHEM

I- We are happy children, all united in the School
We belong to one family
Holy Cross is giving us the truth and light and love
To each and every child
From the North and from the South From the East and West
We have gathered all together.

Chorus : And we are delighted that we are united
Into Holy Cross Convent School
Yes we are delighted that we are united
Into our Holy Cross Convent School

We will share the goods we have
With everyone in need As good children do
We are grateful that our parents send us to this School

Chorus: And we are delighted that we are united
Into Holy Cross Convent School
Yes we are delighted that we are united
In to our Holy Cross Convent School

And its aim is to bring God's love through service of all men,

To learn and grow in his own humanity.

The way is long,
With joyful song,
March ahead,

1. We are very different yet we stand in unity,
To march together towards our perfect destiny.
We will share and care for the whole human race,
So that love of God be brought to all on the earth.
2. The knowledge we have gathered in our Holy Cross
School,
Will enlighten every step throughout our life.
And we shall be shining as the bright light of day,
Never be discouraged but to have that gentle way.

And we shall be making it's new history.
God bless our dear school and our country,
So that its banner may shine throughout eternity.
